Pens For The Troops

We are going great guns on our pens for the troops. We had a work day at Jim Franks, on Sept 29 Dean Z, Jim F, Jack F. Ed H, Dennis & Doug F, Jay J, were there. We did different jobs getting thing ready.

We went to Clyde's on 10/1/11 to turn and teach pen turning. Clyde has a nice place out in Cashton, Wi. Thanks for the use of your shop and lunch Clyde.

We are working with "Operation Home Front" they will be packaging items to send to our troops on Nov 9th at the Armory. This is a Wed night and we will be turning pens that night. So I am looking for volunteers to help out, more on this later.

Thank You to the following CRW artisans who donated their beautiful pieces to the Nick Dobbs benefit auction held on October 8th. Nick is paralyzed (quadriplegic) as a result of an accident in August. I work with his Aunt Lori who remembered seeing our contributions at the GL Heart to Heart celebration. She wondered if I could donate something for the benefit auction, and I asked along. As always, CRW members came through. We collected a total of 14 pieces from Dean Zimmer, Jim Frank, Phil Miller, Terry Snowden, and myself. Good work! Thanks again, Bob Patros

Delta Model #46-700 wood lathe with 12" swing and 36" bed. It is equipped with a Reeves drive variable speed system (500-2000 rpm) and is powered by a 3/4 hp motor at 115 volts. Any ordinary outlet will do to fire up the lathe for immediate use. It is in very good condition and sits on a nicely made wooden stand. The only draw back to the lathe is that the purchaser will probably want to buy a second smaller tool rest. This lathe only comes with a 12" tool rest. Most after market tool rests with a 1" diameter post should do just fine. Again, the lathe is in very good condition and would make a wonderful beginner's lathe or a great lathe for a general woodworking shop. I am asking \$395.00 for it. It's worth a trip to my place to check it out.
